

14th March 2007.

A Word from the 2006 Champion!

The first round of the EDC is drawing near, with drivers and teams working frantically to get themselves ready for round 1 we managed to grab a few words from Phil Morrison, the 2006 Champion.

"I am looking forward to defending my 2006 Championship title this year in the EDC after a tough 2006 season, and having the No.1 plate will bring new pressures which I am looking forward to facing head on.

With the build of our rather special new 'Driftworks' S15 Silvia Drift car myself and the team are taking a big gamble swapping from the well proven Championship winning 'Driftworks' S14 but there is nothing like a bit of a challenge to keep pushing us forward. We cannot wait to go head to head with all the familiar drivers from last years hugely successful Championship and also look forward to competing against new drivers and teams who are joining EDC for 2007. To retain my title at the end of this year will be a very big task for myself and the Driftworks team, but we are progressing well with our setup and are upto the task and we aim to walk away with a lot of silverware and hopefully the title. The structure and format of EDC means the circuits we run at are the toughest and along with the judging criteriameans we are pushed to our limits, so for these reasons alone I am sure that 2007 will again provide a great spectacle for those watching and a great platform for the best Drifters in Europe to compete on. I look forward to seeing familiar and new faces at the first round on 7/8th April at Donington Park."
